

How to Paper Piece

by Jaci Lawson and Mary Furber

Jaci Lawson and Mary Furber have provided this handy photo tutorial if you need a little help with the paper piecing required for their **Razzle Dazzle Wreath** pattern. Don't be shy! Give it a try.

The following tutorial shows how to make **Section A** and **Section B** of **Block B** for the **Razzle Dazzle Wreath** pattern.

1. Crease the foundation at the first sewing line as shown between sections A1 and A2. It is helpful to use a piece of card stock or template plastic to do this.

2. On the back of the foundation, use a glue stick and place a piece of fabric to cover space A1. Note that the fabric must be at least 1/4" larger on all sides than the area to be covered.

3. Turn the foundation over and fold back on the folded line. Using an Add-A-Quarter™ or any rotary cutting ruler, trim the protruding fabric to a 1/4" seam allowance.

4. Place the fabric that will fill position A2 underneath with right sides together and edges aligned.

5. Unfold the foundation and sew on the line between the first two pieces. **Note:** Shorten your stitch length to 1.8 or 15 stitches per inch. This helps to perforate the foundation paper and it helps keep the seam together during the foundation removal process.

6. Turn to the back of the foundation. Open the fabric you just sewed and press.

7. Turn back to the front of your foundation paper. Fold on the next sewing line, between A2 and A3 in this example. Trim the fabric leaving a 1/4" seam allowance.

8. Test that the next piece of fabric is large enough to cover the next section (A3) by placing it under the foundation as shown.

9. Turn to the back of the foundation and position your fabric right sides together.
